Body Material:

Steel, stainless

First End Outside Diameter:

0.167 inches

Bore Diameter:

0.438 inches

Overall Diameter:

0.740 inches

First End External Thread Length:

0.500 inches

Compressed Length:

3.310 inches

Extended Length:

5.310 inches

Integral Valve Operation Method:

Pneumatic

Design Characteristics:

Double acting single cylinder

First Piston Rod End Style:

External threaded

First Piston Rod End Thread Series Designator:

Unf

First Piston Rod End Thread Diameter:

0.190 inches

First Piston Rod End Thread Qty Per Inch (tpi):

32

First Piston Rod End Thread Direction:

Right-hand

Port Location And Quantity:

2 cylinder head end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
