Friction Lining - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3040-00-288-5700

Fabrication Method:

- Woven
- Width:
- 1.500 inches
- Thickness:
- 0.375 inches

Hole Arrangement Style:

Single

Mounting Hole Diameter:

- 0.188 inches
- Lining Style:
- Segment plain
- Arc Length:
- 6.000 inches
- Minor Radius:

4.812 inches

- Application Type:
- Dry
- Hole Type And Quantity:
- 3 countersunk
- Features Provided:
- **Rigid friction lining**
- **Attachment Method:**
- Riveted

Supplementary Features:

- This item has been reviewed for asbestos material. The current approved sources 90830 have indicated thier part number contained
- asbestos prior to 8 4. They continue to manufacture the same part number without asbestos material after 1984

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A230a0
