Friction Lining - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3040-00-288-5700

Fabrication Method:
Woven
Width:
1.500 inches
Thickness:
0.375 inches
Hole Arrangement Style:
Single
Mounting Hole Diameter:
0.188 inches
Lining Style:
Segment plain
Arc Length:
6.000 inches
Minor Radius:
4.812 inches
Application Type:
Dry
Hole Type And Quantity:
3 countersunk
Features Provided:
Rigid friction lining
Attachment Method:
Riveted
Supplementary Features:
This item has been reviewed for asbestos material. The current approved sources 90830 have indicated thier part number contained
asbestos prior to 8 4. They continue to manufacture the same part number without asbestos material after 1984
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A230a0
