**Fabrication Method:**

Woven

**Width:**

1.500 inches

**Thickness:**

0.375 inches

**Hole Arrangement Style:**

Single

**Mounting Hole Diameter:**

0.188 inches

**Lining Style:**

Segment plain

**Arc Length:**

6.000 inches

**Minor Radius:**

4.812 inches

**Application Type:**

Dry

**Hole Type And Quantity:**

3 countersunk

**Features Provided:**

Rigid friction lining

**Attachment Method:**

Riveted

**Supplementary Features:**

This item has been reviewed for asbestos material. The current approved sources 90830 have indicated thier part number contained asbestos prior to 8 4. They continue to manufacture the same part number without asbestos material after 1984

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A230a0
