First End Style:

Plain

End Similarity:

Identical

Overall Length:

16.100 inches

End Application:

C131-t29 aircraft

First End Diameter:

0.4990 inches

Special Features:

2 holes each end, thru, perpendicular, first holes 0.46 in. From ends, second holes 1.16 in. From end; 2 sections of shaft 1.76 from each end and 1.02 in. L. Machined to .450 in. Dia., filled with weld (haynes stellite no.6stellite 10300 welding rod) and ground back to .499 in. Dia.; .03x45 degree chamfer both ends

Material:

Steel comp 321

Material Specification:

Qq-s-763, class 8, typea federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23200
