Overall Length:

8.000 inches

End Connection Type:

Plain ferrule both ends

Casing Material:

Copper-nickel alloy

Torsional Deflection Rating:

0.5 degrees per in.-lb ninding and 0.5 degrees per in.-lb unwinding torsional deflection

Casing Length Between Ferrules:

5.688 inches

Casing Outside Diameter:

0.156 inches

Casing Protective Device Type:

Plastic cover

Enddiameter:

0.185 inches both ends

Minimum Operating Radius:

2.250 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T246-e
