**Overall Length:**

8.000 inches

**End Connection Type:**

Plain ferrule both ends

**Casing Material:**

Copper-nickel alloy

**Torsional Deflection Rating:**

0.5 degrees per in.-lb ninding and 0.5 degrees per in.-lb unwinding torsional deflection

**Casing Length Between Ferrules:**

5.688 inches

**Casing Outside Diameter:**

0.156 inches

**Casing Protective Device Type:**

Plastic cover

**Enddiameter:**

0.185 inches both ends

**Minimum Operating Radius:**

2.250 inches

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T246-e
