**Fabrication Method:**

Molded

**Width:**

1.250 inches

**Thickness:**

Between 0.177 inches and 0.197 inches

**Hole Arrangement Style:**

Single

**Strengthening Feature:**

Layered flat steel backing member

**Friction Lining Material:**

Asbestos composition

**Lining Style:**

Segment plain

**Arc Length:**

5.279 inches

**Minor Radius:**

3.781 inches

**Application Type:**

Dry

**Hole Type And Quantity:**

4 countersunk

**Features Provided:**

Rigid friction lining

**Surface Condition And Location:**

One side ground

**Attachment Method:**

Riveted

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A230a0
