Friction Lining - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3040-00-333-4393

Fabrication Method:
Molded
Width:
1.250 inches
Thickness:
Between 0.177 inches and 0.197 inches
Hole Arrangement Style:
Single
Strengthening Feature:
Layered flat steel backing member
Friction Lining Material:
Asbestos composition
Lining Style:
Segment plain
Arc Length:
5.279 inches
Minor Radius:
3.781 inches
Application Type:
Dry
Dry Hole Type And Quantity:
•
Hole Type And Quantity:
Hole Type And Quantity: 4 countersunk
Hole Type And Quantity: 4 countersunk Features Provided:
Hole Type And Quantity: 4 countersunk Features Provided: Rigid friction lining
Hole Type And Quantity: 4 countersunk Features Provided: Rigid friction lining Surface Condition And Location:
Hole Type And Quantity: 4 countersunk Features Provided: Rigid friction lining Surface Condition And Location: One side ground
Hole Type And Quantity: 4 countersunk Features Provided: Rigid friction lining Surface Condition And Location: One side ground Attachment Method:
Hole Type And Quantity: 4 countersunk Features Provided: Rigid friction lining Surface Condition And Location: One side ground Attachment Method: Riveted
Hole Type And Quantity: 4 countersunk Features Provided: Rigid friction lining Surface Condition And Location: One side ground Attachment Method: Riveted Shelf Life:
Hole Type And Quantity: 4 countersunk Features Provided: Rigid friction lining Surface Condition And Location: One side ground Attachment Method: Riveted Shelf Life: N/a
Hole Type And Quantity: 4 countersunk Features Provided: Rigid friction lining Surface Condition And Location: One side ground Attachment Method: Riveted Shelf Life: N/a
Hole Type And Quantity: 4 countersunk Features Provided: Rigid friction lining Surface Condition And Location: One side ground Attachment Method: Riveted Shelf Life: N/a Unit Of Measure:
Hole Type And Quantity: 4 countersunk Features Provided: Rigid friction lining Surface Condition And Location: One side ground Attachment Method: Riveted Shelf Life: N/a Unit Of Measure: Demilitarization:
