Friction Lining - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3040-00-361-6450

Fabrication Method:
Woven
Width:
6.025 inches
Thickness:
0.625 inches
Hole Arrangement Style:
Double even
Strengthening Feature:
Interwoven wire
Friction Lining Material:
Asbestos composition
Lining Style:
Segment plain
Arc Length:
7.094 inches
Minor Radius:
8.500 inches
Application Type:
Dry
Hole Type And Quantity:
6 countersunk
Features Provided:
Rigid friction lining
Surface Condition And Location:
One side ground
Attachment Method:
Attachment Method: Riveted
Riveted
Riveted Special Features:
Riveted Special Features: Countersunkon inner arc
Riveted Special Features: Countersunkon inner arc Shelf Life:
Riveted Special Features: Countersunkon inner arc Shelf Life: N/a
Riveted Special Features: Countersunkon inner arc Shelf Life: N/a
Riveted Special Features: Countersunkon inner arc Shelf Life: N/a Unit Of Measure:
Riveted Special Features: Countersunkon inner arc Shelf Life: N/a Unit Of Measure: Demilitarization:
