Major Diameter:

Between 0.255 inches and 0.257 inches

Serration Quantity:

19

End Application:

Valve, control, air temperature, environmental control system

Minor Diameter:

Between 0.230 inches and 0.232 inches

Bore Type:

Serrated

Shaft Securing Method:

Serrations

Material:

Steel

Material Specification:

Ams 5355, cond 17-4ph assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A524p0
