Major Diameter:

0.312 inches

End Application:

Valve, fuel, aircraft engine

Bore Type:

Serrated

Special Features:

Surface treatment per mil-a-8625, type 1

Material:

Aluminum alloy

Material Specification:

Qq-a-601, alloy 356, t6 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524p0
