**Major Diameter:**

0.312 inches

**End Application:**

Valve, fuel, aircraft engine

**Bore Type:**

Serrated

**Special Features:**

Surface treatment per mil-a-8625, type 1

**Material:**

Aluminum alloy

**Material Specification:**

Qq-a-601, alloy 356, t6 federal specification single material response

**Surface Treatment:**

Anodize

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A524p0
