Linear Actuating Cylinder Assembly - Page 1 of 1

View Online at <https://aerobasegroup.com/nsn/3040-00-493-1842>

Body Material:

Steel

Bore Diameter:

4.250 inches

End Application:

38204105549

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Double acting single cylinder

First Piston Rod End Style:

Bushing type

Mounting Type And Location:

Tongue cylinder head end

Port Location And Quantity:

1 cylinder head end

Fsc Application Data:

Drill, pneumatic, drifter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
