Overall Length:

8.000 feet

Diameter:

0.150 inches

Design Type:

Remote controlled

Minimum Operating Radius:

3.500 inches

Maximum Shaft Angular Deflection In Deg:

6.00 per foot

Metal Casing:

Not provided

Material:

Steel

Material:

Steel

Fsc Application Data:

Receiving set, signal radio navigation equipment airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T246-f
