Fabrication Method:

Molded

Major Diameter:

0.780 inches

Thickness:

0.063 inches

Minor Diameter:

0.580 inches

Lining Style:

Clutch disk

Application Type:

Dry

Features Provided:

Rigid friction lining

Supplementary Features:

This item has been reviewed for asbestos material. The current approved sources 70210 have indicated their part number contained asbestos prior to 1984. They continue to manufacture the same part number without asbestos material after 1984

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A230a0
