Body Material:

Steel, qq-t-830, comp mt1010, cond cdsr-canceled

Overall Height:

6.000 inches

Overall Width:

4.250 inches

Body Outside Diameter:

3.500 inches

Compressed Length:

10.750 inches

Extended Length:

12.000 inches

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Single acting single cylinder

Fsc Application Data:

Launcher guided missile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A34200
