Fabrication Method:

Molded

Major Diameter:

6.250 inches

Thickness:

0.188 inches

Hole Arrangement Style:

Straight

Minor Diameter:

3.500 inches

Friction Lining Material:

Asbestos composition

Lining Style:

Clutch disk

Application Type:

Dry

Features Provided:

Rigid friction lining

Circular Pattern Hole Type And Quantity:

3 countersunk single securing circle

Attachment Method:

Riveted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A230a0
