**Integral Valve Operation Method:**

Hydraulic

**Design Characteristics:**

Double acting single cylinder

**First Piston Rod End Style:**

External threaded

**Piston Rod End Similarity:**

Not identical

**Second Piston Rod End Style:**

External threaded

**Port Location And Quantity:**

2 center section

**Special Features:**

Rated capacity-advance 16 ton, retract 9.5 ton

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A34200
