Fabrication Method:

Compressed

Width:

2.500 inches

Thickness:

0.250 inches

Hole Arrangement Style:

Indefinite

Mounting Hole Diameter:

Any acceptable

Thru-hole Diameter:

Any acceptable

Friction Lining Material:

Asbestos composition

Lining Style:

Segment plain

Arc Length:

12.000 inches

Minor Radius:

Any acceptable

Hole Type And Quantity:

18 thru-hole

Features Provided:

Rigid friction lining

Surface Condition And Location:

One side ground

Attachment Method:

Riveted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A230a0
