**Width:**

3.000 inches

**Overall Length:**

6.875 inches

**Thickness:**

0.375 inches

**Hole Arrangement Style:**

Staggered

**Friction Lining Material:**

Copper alloy, qq-c-390, alloy 954

**Lining Style:**

Rectangular block plain

**Application Type:**

Dry

**Hole Type And Quantity:**

5 countersunk

**Features Provided:**

Rigid friction lining

**Surface Condition And Location:**

One side ground

**Attachment Method:**

Riveted

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A230a0
