Width:

3.000 inches

Overall Length:

6.875 inches

Thickness:

0.375 inches

Hole Arrangement Style:

Staggered

Friction Lining Material:

Copper alloy, qq-c-390, alloy 954

Lining Style:

Rectangular block plain

Application Type:

Dry

Hole Type And Quantity:

5 countersunk

Features Provided:

Rigid friction lining

Surface Condition And Location:

One side ground

Attachment Method:

Riveted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A230a0
