Body Material:

Aluminum alloy, qq-a-225/9, alloy 7075, t73

Overall Length:

14.090 inches

Bore Diameter:

2.875 inches err-100 err-100

Body Outside Diameter:

4.030 inches

Seat Angle In Deg:

90.0

Port Location And Quantity:

1 cylinder head end err-100 err-100

Port Style:

Flare 1st port

Port Thread Series Designator:

Unf

Port Thread Diameter:

0.500 inches

Port Thready Qty Per Inch (tpi):

24

Port Thread Class:

3b

Criticality Code Justification:

Feat

Special Features:

Flight safety critical

Fsc Application Data:

Shock strut, landing gear, acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
