**Special Features:**

Aluminum alloy comp 6061-t6, dim., 0.031 in. Material thickness, arc segment 60 degrees wide measured in 4th quadrant from 270 to 330 deg, 0.687 in. Nom inner radius, 0.875 in. Nom outer radius, 0.781 in. Nom center of slot radius, 1.017 in. Radius of single tooth projection on horizontal centerline, slot end radius centers 0.125 in. From horizontal centerline and 330 degrees radius line, tooth angle 30 degrees both faces

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A50800
