| Cross Sectional Shape:                      |
|---|
| Plain rectangular, straight face            |
| Ring Style:                                 |
| Concentric                                  |
| Radial Wall Thickness:                      |
| Between 0.0500 inches and 0.0510 inches     |
| Overall Width:                              |
| Between 0.0890 inches and 0.0990 inches     |
| Standard Bore Diameter:                     |
| 0.442 inches                                |
| Joint Style:                                |
| Vertical joint                              |
| Material:                                   |
| Iron  |
| Material Specification:                     |
| Cc170 mfr ref single material response      |
| Fsc Application Data:                       |
| Drive, constant speed, mechanical, aircraft |
| Shelf Life:                                 |
| N/a   |
| Unit Of Measure:                            |
|   |
| Demilitarization:                           |
| No  |
| Fiig:                                       |
| A08400                                      |
