Body Material:

Steel

Temperature Rating:

Not rated

Bore Diameter:

2.250 inches

Body Outside Diameter:

2.980 inches

Compressed Length:

61.250 inches

Extended Length:

107.250 inches

Pressure Rating:

Not rated

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Single acting single cylinder

First Piston Rod End Style:

External threaded

Port Location And Quantity:

1 center section

Port Style:

Gasket seal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
