Overall Length:

5.750 inches

Shank Outside Diameter:

0.220 inches both ends

Core Material:

Steel, carbon

Core Diameter:

0.150 inches

End Connection Type:

Plain ferrule both ends

Casing Material:

Steel, carbon

Casing Length Between Ferrules:

4.150 inches

Enddiameter:

0.380 inches second end

Corelength:

4.850 inches

Core Rotation Direction:

Clockwise

Core Removability:

Nonremovable

Special Features:

Four set screws furnished

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T246-e
