Overall Length:

44.4375 inches

End Application:

Used on abf499 af1

Special Features:

Material document and classification: alloy no.630; form optional, temper annealed, spec qq-c-465 or astm b150 or copper alloy casting, alloy no.953, heat treated, type ii or iii, spec qq-c-390 or astm b505 or copper alloy casting, alloy no.955 as cast; type iii specification qq-c-390 or astm b505; 2.6875 in.Dia

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A525x0
