Linear Actuating Cylinder Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3040-01-078-7503

Second End Outside Diameter:
2.000 inches
Compressed Length:
147.500 inches
Extended Length:
275.500 inches
Features Provided:
Locking device
Integral Valve Operation Method:
Hydraulic
Design Characteristics:
Single acting single cylinder
First Piston Rod End Style:
Ring type
Piston Rod End Similarity:
Not identical
Second Piston Rod End Style:
Ring type
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A34200
