Linear Actuating Cylinder Assembly - Page 1 of 1

View Online at <https://aerobasegroup.com/nsn/3040-01-078-7503>

Second End Outside Diameter:

2.000 inches

Compressed Length:

147.500 inches

Extended Length:

275.500 inches

Features Provided:

Locking device

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Single acting single cylinder

First Piston Rod End Style:

Ring type

Piston Rod End Similarity:

Not identical

Second Piston Rod End Style:

Ring type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
