Overall Length:

6.194 inches

Body Diameter:

Between 0.945 inches and 1.030 inches

Link Style:

Clevis ends

Body Construction:

Tubular

Special Features:

Between hole diameter: 0.249 in. And 0.250 in. ; effective length: 5.314 in. ; end radius: 0.440 in. ; fork width: 0.630 in. ; fork span width: 0.400 in. ; fork depth: 1.050 in. And 1.150 in. ; end length: 1.490 in. And 1.590 in. ; end diameter: 0.880 in. ; connecting hole bushing location: both ends; surface treatment per mil-a-8625, type 1

Material:

Aluminum

Material Specification:

Qq-a-250/4, alloy 2024, t42 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A52410
