First End Style:

Plain

End Similarity:

Not identical

Second End Style:

External threaded

Overall Length:

9.375 inches

End Application:

Elevator work cage lgm-30

First End Diameter:

0.3746 inches

Second End Diameter:

0.3750 inches

Second End External Thread Length:

0.400 inches

Surface Finish:

32.0 microinches

Special Features:

Straight keyway on second end 0.096 in. W by 0.96 in. L by 0.0476 in deep

Material:

Stainless steel

Material Specification:

300 series mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23200
