Center To Center Distance Between Link And Shaft Holes:

3.000 inches

Shaft End Thickness:

1.500 inches

Link End Hole Diameter:

0.377 inches

Distance Between Fork Inside Spread:

0.502 inches

Special Features:

Cadmium plate, type ii, class 3, spc qq-p-416; apply ident marking per mil-std-130; offset height: 0.500 in.

Material:

Steel

Material Specification:

Aisi 4130 assn standard single material response

Style Designator:

Clevis link end, securing hol (s) shaft end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A524p0
