**Bore Type:**

Plain straight

**Center To Center Distance Between Link And Shaft Holes:**

2.750 inches

**Shaft End Thickness:**

0.878 inches

**Link End Hole Diameter:**

0.377 inches

**Distance Between Fork Inside Spread:**

0.418 inches

**Special Features:**

Interpret drawing in accordance with standards prescribed by mil-std-100

**Material:**

Steel

**Material Specification:**

Aisi 4130 assn standard single material response

**Style Designator:**

Clevis link end, securing hol (s) shaft end

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A524p0
