Overall Length:

7.470 inches

End Application:

Used on ifv m2a1

Shaft Type:

Shouldered

Shaft Material:

Steel comp 8620 and steel comp 4620

Gear Material:

Steel comp 4140 and steel comp 4340

Hardness Rating And Location:

35.0 rockwell c gear and 39.0 rockwell c gear

Shaft Largest Diameter:

2.379 inches

Gear Location On Shaft:

Midpoint between ends of shaft

Special Features:

1st end gear: teeth q type 73; diametral pitch 12; pressure angle 20 degrees; 2nd end gear: teeth q type 17; diametral pitch 8; pressure angle 20 degrees

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A503n0
