First End Style:

Plain

End Similarity:

Identical

Overall Length:

1.125 inches

End Application:

Emergency diesel engine onboard 270 ft c.G. Vessels

First End Diameter:

0.7500 inches

Surface Finish:

32.0 microinches

Special Features:

Shaft is hollow; square in shape- 0.383 in- 0.387 in x 0.383 in- 0.387 in; used aboard 270 ft u.S. Coast guard vessels

Material:

Steel

Material Specification:

717576, fscm 11083 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23200
