Special Features:

Material document and classification: type 416 per mcp 5, bright harden to 76.5 to 83.0 rockwell 15n per mil-h-6875 except austenitizing heat cycle to be performed in a vacuum and quench to be in high purity nitrogen; heigth one end 0.500 in.; heigth other end 0.070 in.W diameter 0.600

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A525x0
