Body Diameter:

0.750 inches

End Attachment Style:

Eye both ends

Link Style:

Eye to internal thread

Body Construction:

Tubular

Special Features:

Hthread length: 0.730 in. ; effective length: 8.300 in. ; thread size: 3/8-24; end attachment included; locknut included; distance from hole center to body: 1.000 in. ; mattdala000

Material Specification:

Ww-t-700/3, to, type 1 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A52410
