Linear Actuating Cylinder Assembly - Page 1 of 1

View Online at <https://aerobasegroup.com/nsn/3040-01-131-1229>

Body Material:

Steel, corrosion resisting

Bore Diameter:

4.000 inches

Compressed Length:

42.000 inches

Extended Length:

72.000 inches

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Single acting single cylinder

First Piston Rod End Style:

Fork type (clevis)

Piston Rod End Similarity:

Identical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
