First End Style:

Plain

End Similarity:

Not identical

Second End Style:

External threaded

Overall Length:

8.237 inches

First End Diameter:

Between 5.1250 inches and 5.1260 inches

Second End Diameter:

2.8750 inches

Second End External Thread Length:

0.500 inches

Step Quantity:

10

Criticality Code Justification:

Feat

Largest Step Diameter:

Between 5.125 inches and 5.126 inches

Surface Finish:

90.0 microinches

Special Features:

Flight safety critical

Material:

Steel

Material Specification:

Ams6265 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23200
