First End Style:

Plain

End Similarity:

Not identical

Second End Style:

Internal threaded

Overall Length:

0.969 inches

End Application:

Cai div of recon/optical inc film magazine

First End Diameter:

0.1872 inches

Second End Diameter:

0.1872 inches

Second End Internal Thread Length:

0.188 inches

Special Features:

Middle of shaft is 0.172 in dia, 0.156 in.Wide; both ends chamfered 0.015 in. By 45 deg

Material:

Stainless steel

Material Specification:

Qq-s-764, cl 303, cond a federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23200
