**Overall Length:**

16.052 inches

**Body Diameter:**

1.500 inches

**Link Style:**

Tubular shank

**Body Construction:**

Tubular

**Criticality Code Justification:**

Feat

**Product Name:**

Push rod assembly adjustable - main rotor servo input

**Special Features:**

1st end has pin on end attachment - 2nd end has nut on end attachment; flight safety critical

**Material:**

Aluminum alloy

**Surface Treatment:**

Anodize and paint and primer

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A52410
