Overall Length:

16.052 inches

Body Diameter:

1.500 inches

Link Style:

Tubular shank

Body Construction:

Tubular

Criticality Code Justification:

Feat

Product Name:

Push rod assembly adjustable - main rotor servo input

Special Features:

1st end has pin on end attachment - 2nd end has nut on end attachment; flight safety critical

Material:

Aluminum alloy

Surface Treatment:

Anodize and paint and primer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A52410
