Pivot Pin Hole Diameter:

18.0 millimeters

Special Features:

Heat treated per mil-h-6875 to 1517-1655 mpa (220-240 ksi); surface roughness is 3.2 microns; material document and classification: steel, mil-s-5000, comp 4340; surface finish: zinc coated; depth from pivot pinhole centerline to point of engagement: 5.0 mm nom; length from pivot pinhole center to engagement end: 92.0 mm nom

Style Designator:

Rocker, lower engagement

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524q0
