Overall Diameter:

1.610 inches

End Application:

Bgm-109g

Compressed Length:

8.770 inches

Extended Length:

12.020 inches

Integral Valve Operation Method:

Pneumatic

Design Characteristics:

Single acting single cylinder

First Piston Rod End Style:

Bearing type

Piston Rod End Similarity:

Not identical

Second Piston Rod End Style:

Tongue type

Fsc Application Data:

Actuator for wing slot door

Reference Number Differentiating Characteristics:

As differentiated by source controlled drawing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A34200
