Unable To Decode:

Unable to decode and unable to decode

Overall Length:

5.960 inches

End Application:

Mcdonnell p/n 53-81207 instrument main panel

Body Construction:

Solid

Special Features:

T cross section and angled ends; supp features: made from nsn 9540-00-500-5218 p/n 1ma160b04-10320 structural section

Material:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A52410
