Body Material:

Aluminum

Overall Height:

Between 1.961 inches and 1.965 inches

Bore Diameter:

Between 0.905 inches and 0.907 inches

Body Outside Diameter:

1.265 inches

Overall Diameter:

Between 1.235 inches and 1.265 inches

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Double acting single cylinder

First Piston Rod End Style:

Internal threaded all working ends

First Piston Rod End Thread Series Designator:

Unf all working ends

First Piston Rod End Thread Diameter:

0.190 inches all working ends

First Piston Rod End Thread Qty Per Inch (tpi):

32 all working ends

First Piston Rod End Thread Class:

3a all working ends

First Piston Rod End Thread Direction:

Right-hand all working ends

Special Features:

Nongovernmental document data 64760-73433

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
