Serration Quantity:

36

End Application:

Pla assembly of main fuel control model cj-ba1; fuel component, f100-pw-220 aircraft engine

Bore Type:

Serrated

Center To Center Distance Between Link And Shaft Holes:

0.560 inches

Special Features:

Style - pivot pin link end, clamp-type shaft end w/.250 in. Nom diameter straight side serrations; 0.1251 - 0.1253 in. Diameter pin 0.310 in. L one side

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A524p0
