First End Style:

Plain

End Similarity:

Not identical

Overall Length:

2.513 inches

End Application:

B-1b aircraft

First End Diameter:

0.2497 inches

Special Features:

Shaft involute spined external, 20 number of teeth; first end length 0.352, spline area length 0.438, shaft has knuckle type end 90 opposite shaft centerline; chromium plate per la0109-019 .002 thick; 0.640 from shaft center line to top of knuckle surface

Material:

Steel

Fsc Application Data:

Aircraft hydraulic systems

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23200
