Linear Actuating Cylinder Assembly - Page 1 of 1

View Online at <https://aerobasegroup.com/nsn/3040-01-254-4638>

Overall Diameter:

0.875 inches

Integral Valve Operation Method:

Pneumatic

Design Characteristics:

Single acting single cylinder

First Piston Rod End Style:

External threaded

First Piston Rod End Thread Series Designator:

Unf

First Piston Rod End Thread Diameter:

0.250 inches

First Piston Rod End Thread Qty Per Inch (tpi):

28

Mounting Type And Location:

Screw piston rod end

Special Features:

Nose mount thread size 0.500 in-20 unf

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
